RENNY KURIAN

Test Lead | QA & Automation Testing | AI/LLM Quality Validation

Mumbai, India // rennykurian@gmail.com // +91 9645766573

PROFESSIONAL SUMMARY

Quality Assurance leader with 15+ years of experience across manual, automation, performance, and AI/LLM testing. Proven record leading test teams, designing automation frameworks, and driving process improvement across banking, financial services, manufacturing, and enterprise applications. Recent focus on validating AI/LLM-based systems, including prompt evaluation and observability testing using Langfuse and LangSmith. Six Sigma Green Belt certified with strong grounding in requirement analysis, functional and regression testing, and back-end (PL/SQL) validation.

CORE COMPETENCIES

QA Leadership: Test Planning & Strategy, Test Lead/Team Management, Requirement Analysis, Process Consulting, Audit & Compliance Review

AI/LLM Testing: Prompt Validation, Langfuse, LangSmith, Dataset & Observability Testing, Playwright for LLM Validation

Automation: Selenium, Java, Playwright, Cucumber, TestNG, QTP, Framework Design

Testing Types: Functional, Regression, Performance (JMeter, BlazeMeter), UI, Back-end (PL/SQL)

Tools & Platforms: Quality Center/ALM, Bugzilla, Digite Optimus, SAP (SD & functional modules)

Certifications: Six Sigma – Green Belt

PROFESSIONAL EXPERIENCE

Test Lead | *S&P Global, Mumbai* **Jul 2021 – Present**

- Lead functional and regression testing, including **AI prompt validation** for LLM-based features.
- Design and execute **evals (evaluation)** using automation scripts to validate system scalability.
- Built **Playwright automation** for LLM validation, supporting reliable evaluation of model outputs.
- Use **Langfuse and LangSmith** for dataset management and observability testing of AI pipelines.
- Deliver client demos of user stories, aligning test outcomes with business and stakeholder expectations.

Senior Consultant | *Antrika (Clients: Kefi-tech, Netserv)* **Sep 2019 – Jul 2021**

- Led a testing team within an **agile delivery model**, coordinating across multiple client engagements.
- Built automation scripts using **Java and Selenium**; designed frameworks with **Cucumber and TestNG**.
- Conducted **performance testing** using JMeter and BlazeMeter to validate application scalability.
- Authored user manuals and design-improvement recommendations to strengthen release quality.

Process Consultant / Test Analyst → SQA Analyst | *UST Global, Trivandrum* **Jul 2012 – Jul 2017**

- Led a testing team and partnered with the agile team to identify and close **process and project gaps**.
- Authored process documentation, checklists, templates, and guidelines to remediate identified gaps.
- Conducted internal **process and change-management audits**, and led readiness checks for ISAE (SAS) audits performed by KPMG.
- Implemented **Digite Optimus** for project scheduling and time tracking across teams.
- As SQA Analyst: reported weekly testing status, supported a tax-domain scrum team, and automated UI testing using Visual Studio 2010.

EARLY CAREER

SQA Test Lead | *ACS-Xerox, Kochi* Mar 2011 – Jun 2012

- Directed smoke, functional, regression, and integration testing for web-based applications; reported weekly test status.

Test Lead | *Media Systems, Kochi* Aug 2010 – Mar 2011

- Executed SAP SD module testing; managed test cases and defect tracking in Quality Center; logged and categorized bugs via Bugzilla.

QA Test Engineer | *Johnson Controls, Inc., Milwaukee* Sep 2007 – Jul 2010

- Executed and maintained automated QTP test scripts; coordinated with an offshore team on test reviews and status reporting. Environment: .NET, VB.NET, C#, VBScript, SQL Server, QTP 9.5, Quality Center.

QA Engineer | *Axcelis Technologies, MA* Sep 2006 – Sep 2007

- Performed regression testing and change-request validation for semiconductor equipment software; wrote Oracle stored procedures and SQL queries for data validation. Environment: .NET, UNIX, VxWorks, VB, Oracle 9, QTP.

QA Tester | *Infineon/Qimonda, VA* Aug 2005 – Sep 2006

EDUCATION

Master of Computer Applications (MCA)
